CME 75 Package

CARDIOLOGY

1. Best Practices in the Evaluation and Management of Atrial Fibrillation
2. Challenges in Heart Failure
3. Evaluation and Treatment of Valvular Heart Disease
4. Optimal Management of Chronic CAD
5. Preventive Cardiology: Risk Assessment for the Noncardiac Patient
6. Stress Testing: Right Test for the Right Patient at the Right Time
7. Update in Cardiology

CLINICAL PHARMACOLOGY

8. Pain Management in 2017

ENDOCRINOLOGY

9. Andropause: When Is Testosterone Therapy Indicated?
10. Management of the Incidentally Found Thyroid Nodule
11. Prediabetes Diagnosis and Management
12. Update in Endocrinology

GASTROENTEROLOGY AND HEPATOLOGY

13. Bottoms Up: Common Anorectal Conditions Encountered by the Internist
14. Diarrhea: Common Sense for a Common Condition
15. Gastroenterology: Cost-Conscious Care for Common Conditions
16. Liver Rounds: What's New in Hepatology?
17. Update in Gastroenterology and Hepatology
18. Weighing In on Medical Management of Obesity

GERIATRIC MEDICINE

19. From Fragile to Agile: Maintaining Function in the Older Adult
20. Is It Dementia or Just "Old Age"?
21. Update in Geriatric Medicine
22. Urinary Incontinence in Older Adults
23. When Less Is More: Tailoring Medication Use in the Older Adult

HEMATOLOGY

24. Common Bleeding Disorders: Bloody Elusive Foes
25. Erythrocytosis: A Plethora of Problems
26. Iron: Too Much, Too Little, Too Late
27. Sickle Cell Disease: New Guidelines for Therapy
28. Update in Hematology and Oncology

HOSPITAL MEDICINE

29. Acute Arthritis in the Hospital: Focus on Septic Arthritis and Its Mimics
30. Catching Up with a Racing Heart: Approach to Tachyarrhythmia
31. CAUTI Conundrum
32. Challenges in Inpatient Management of Pregnant Patients
33. Delirium Management in the Hospital Setting
34. Diabetes Management in the Hospital
35. Endocrine Emergencies in the Hospital: Not Everything Is Diabetes
36. Evaluation of Syncope and Autonomic Syndromes
37. Noninvasive Ventilation Techniques
38. Pneumonia in the Hospital: CAP and HAP
39. Skin and Soft Tissue Infections in the Hospital
40. Update in Hospital Medicine
41. VTE Diagnosis and Treatment in 2017

INFECTIOUS DISEASES

42. Ambulatory Infections: What to Do, and Why
43. HIV 2017
44. Immunizations for Adults
45. Update in Infectious Diseases
46. Vector-Borne Infections: In Your Backyard and Getting Closer
47. What's Hot in STDs?

MULTIPLE SMALL FEEDINGS OF THE MIND

48. Multiple Small Feedings of the Mind: Cardiology, Sleep Medicine, and Infectious Diseases
49. Multiple Small Feedings of the Mind: Gastroenterology, Integrative Medicine, and Endocrinology
50. Multiple Small Feedings of the Mind: General Internal Medicine, Addiction Medicine, and Anticoagulation

NEPHROLOGY AND HYPERTENSION

51. Cases in Electrolyte and Acid-Base Disorders
52. Diagnosis and Management of Kidney Stones
53. Hypertension: Beyond the JNC
54. Management of Common Urologic Conditions: Hematuria, ED, and BPH
55. Update in Nephrology and Hypertension

NEUROLOGY

56. Approach to the Patient with Headache
57. Cerebrovascular Disease: Important Updates, Guidelines, and New CVA Management
58. Update in Neurology

ONCOLOGY

59. Cancer of Unknown Primary: Knowing the Unknown
60. Curable Cancers: Progress in Oncology

PULMONARY DISEASES AND CRITICAL CARE

61. Clinical Approaches to Obstructive Lung Disease (COPD and Asthma)
62. E-Cigarettes: Where There Is Smoke but No Fire
63. Update in Critical Care Medicine
64. Update in Pulmonary Medicine

RHEUMATOLOGY

65. Best Foot Forward: Common Foot Complaints That Walk into the Office
66. Osteoporosis: Can We Keep It Simple?
67. Practical Approaches to Shoulder and Knee Pain
68. Rheumatoid Arthritis
69. Update in Rheumatology

WOMEN'S HEALTH

70. Gynecology for the Internist
71. Update in Women's Health
72. What's New in Menopause Management?

ADDITIONAL TOPICS

73. I Didn't Sleep at All Last Night: The Sleep-Disturbed Patient
74. Palliating Common Symptoms at the End of Life
75. Update in General Internal Medicine

Add the Internal Medicine Bonus Package for only \$395 and get over 100 additional sessions →

purchase of
CME 75
Package

CARDIOLOGY

1. Clinical Triad: Vascular Disease from Head to Toe—When to Intervene and When to Monitor
2. Making Sense of Chest Pain

CAREER AND PROFESSIONALISM

3. Basic Things You Know You Should Know but Don't
4. Mentorship and Sponsorship: Why Both Are Necessary Ingredients for Women Leaders
5. More News You Can Use: Current Best Practice Advice
6. Moving Forward with a Community-Redesigned MOC
7. Patient- and Family-Centered Care in the Ambulatory Setting
8. Physician Wellness: Time to Take Care of Our Own
9. Presentation Skills for Physicians: Making Your Next Teaching Presentation Go Better Than Your Last
10. Preserving Meaning in Medicine through Volunteering
11. Wearables, Smartphones, Trackers—Oh My: The New Age of Patient Technologies

CLINICAL PEARLS

12. Clinical Pearls: Geriatric Medicine and Palliative Care
13. Clinical Pearls: Pulmonary Medicine and Dermatology
14. Clinical Pearls: Women's Health and Infectious Diseases

CLINICAL PHARMACOLOGY

15. New Medications You Need to Know About
16. Safer Opioid Prescribing for the Generalist: Initial Patient Evaluation, Interval Follow-up, and Troubleshooting
17. Top Ten Medication Errors

EARLY CAREER PHYSICIANS, RESIDENTS/FELLOWS

18. Billing and Coding: What You Didn't Learn in Residency, and Why It Matters
19. Blogging and Social Media in Health Care
20. He Said, She Said: Tips for Effective Work-Life Integration
21. iPatient/Electronic Health Records
22. New Physician/Provider Boot Camp
23. Teaching Clinical Simulations Without It Costing an Arm and a Leg

ENDOCRINOLOGY

24. An International Perspective on Management of Diabetes and Obesity
25. Escalating Care in Management of Type 2 Diabetes: Preventing Clinical Inertia

ETHICS AND HEALTH POLICY

26. 60 Minutes: Special Report on Hot Issues in Health Policy
27. Climate Change: The Health Perspective
28. Ethical Challenges Role Play: Communicating with Patients about Potentially Controversial Topics
29. Examining the Rise in Prescription Drug Pricing and Costs
30. Genomics and Primary Care: Ethical and Practical Implications
31. Health Care for Hard-to-Reach Populations
32. OpenNotes and Patient Engagement: A Point/Counterpoint Discussion
33. Practical Palliative Care: Managing Pain at the End of Life
34. Preferred Practices for Understanding and Eliminating Lesbian, Gay, Bisexual, and Transgender (LGBT) Disparities

GASTROENTEROLOGY AND HEPATOLOGY

35. Clinical Triad: Cancer Screening—Pancreas, Esophagus, and Colon
36. Nutrition and the Gut: You Are What You Eat

GERIATRIC MEDICINE

37. Improving Outcomes in the Hospitalized Older Adult

HEALTH INFORMATION TECHNOLOGY

38. Beyond the Hype and into the Real World: Making Mobile Health (mHealth) Matter for Your Practice
39. Looking Towards 2020: New Care Delivery Models Enabled by Existing and Near Future Technology
40. MIPS Reporting: Managing the Health IT Challenges
41. Telemedicine Use in Providing Quality Care
42. What May Change Your Practice Tomorrow: Hot Topics in Medical Informatics
43. What Physicians Really Need from EHRs to Be Successful in a Value-Based World

HEMATOLOGY

44. Clinical Triad: Managing Thrombosis in Special Circumstances

HOSPITAL MEDICINE

45. A Hospitalist Approach to Mass Casualty Events
46. A Hospitalist Approach to Pressure Wounds
47. Approach to Alcohol Withdrawal in the Hospital: Riding the Pink Elephant
48. Approach to the Swollen Patient
49. Best Practices and Strategies for Successful Quality Improvement
50. Case-Based Clinical Reasoning in the Hospital
51. *Clostridium difficile*: What the Hospitalist Needs to Know
52. Common Urology Problems in the Hospitalized Patient
53. Current Approaches to Managing Acute Decompensated Heart Failure
54. Decreasing Errors in the Hospital: What Can We Learn from Human Factors Engineering?

Internal Medicine Bonus Package

\$395 with
purchase of
CME 75
Package

- 55. Dermatologic Emergencies in the Hospital
- 56. High-Value Care in the Inpatient Setting
- 57. Infective Endocarditis
- 58. Managing Acute Noncancer Pain in the Hospital
- 59. Managing Patients with Underlying ALS, MS, and Parkinson's Disease in the Hospital Setting
- 60. Observation Versus Inpatient Status: When Will the Clock Run Out on the Two Midnight Rule?
- 61. Post MI Management and Complications
- 62. Radiology Pearls and Pitfalls: Common Radiology Test Ordering Questions Answered
- 63. Reducing Readmissions by Improving Adherence: Helpful Tools for the Hospitalist
- 64. Strategies to Decrease Readmissions: Challenges and Opportunities
- 65. Touching Where It Hurts: Bedside Medicine in a Technical Age

INFECTIOUS DISEASES

- 66. Antibiotics: What Everyone Needs to Know
- 67. Clinical Triad: Travel Medicine
- 68. HIV Diagnosis and Care across the Ages—Adolescent to Elder Care
- 69. Project ECHO: Linking Rural and Underserved Populations to Improve Care for Patients with Hepatitis C

MEDICAL PRACTICE MANAGEMENT

- 70. C. Wesley Eisele Lecture: The Good, the Bad, and the Ugly: Physicians in the Digital Age
- 71. Implementing Revenue-Positive and Time-Saving Adult Immunization in Your Practice
- 72. MIPS or APM: Making the Most of Medicare Payment
- 73. Opportunities for Subspecialists: Navigating Alternative Payment Models under MACRA

- 74. Outpatient Coding: Do It Right and Get Paid for What You Do
- 75. Patients before Paperwork: What Can Be Done to Ease Administrative Burdens on Physicians and Their Patients?
- 76. Team-Based Care: Interprofessional Practice Innovations in Primary Care
- 77. The ACP Genesis Registry and Quality Reporting: From Improvement to Payment
- 78. The Promise and Peril of Value-Based Payment: What Will You Be Measured On—and Will You Measure Up?
- 79. There Is No Place like Home: Why Patient-Centered Medical Homes and PCMH Specialty Practices Are Here to Stay

NEPHROLOGY AND HYPERTENSION

- 80. Chronic Kidney Disease: Definitions and Screening

NEUROLOGY

- 81. Peripheral Neuropathy: Sorting Out the Cause and Treating the Symptoms

ONCOLOGY

- 82. Targeting the Immune Checkpoints: Curing Cancer from Within

PERIOPERATIVE MEDICINE

- 83. Challenging Cases in Perioperative Medicine
- 84. Perioperative Medicine: Pearls, Pitfalls, and High-Value Care

PSYCHIATRY

- 85. Dementia: An International Challenge for Internal Medicine Physicians Now and Beyond
- 86. Evaluation and Treatment of Anxiety and Depression in the Primary Care Setting

PULMONARY DISEASES AND CRITICAL CARE

- 87. Clinical Triad: Lung Cancer Screening—How Do You Do That?

RHEUMATOLOGY AND ALLERGY & IMMUNOLOGY

- 88. A Case-Based Approach to Treating the Weekend Warrior
- 89. Cases from the Allergy Clinic
- 90. Chronic Fatigue Syndrome
- 91. Sorting Out Common Causes of Low Back Pain Using History and Physical Exam

WOMEN'S HEALTH

- 92. Clinical Triad: What Do I Do with This Report?
- 93. Contraception: Which Patient? Which Method?

ADDITIONAL TOPICS

- 94. *Annals* Articles That Can Change Your Practice
- 95. Common ENT Problems in Primary Care
- 96. Consult Talk
- 97. Internal Medicine Meeting 2017 Highlights and Doctors' Dilemma®: The Finals
- 98. Mastering the Match
- 99. News You Can Use: Current Clinical Guidelines
- 100. PechaKucha™
- 101. Sharpen Your Physical Examination Skills to Improve Your Diagnostic Skills
- 102. The History of Medicine in 100 Great Paintings
- 103. Thieves' Market

**Check Out the
All-Day Pre-Courses
on the next page!**

Internal Medicine Bonus Package: All Day Precourses

1-2 day courses that offer in-depth, intensive learning opportunities.

ADVANCES IN THERAPY

1. Drug Interactions and Side Effects for 2017
2. Drug Therapy for Outpatient Infections
3. Drug Therapy for Several Common Ambulatory Problems
4. Evidence Based Complementary and Alternative Medications
5. Pearls on Drug Therapy in the Inpatient Setting

CARDIOLOGY FOR THE INTERNIST

1. Acute Coronary Syndromes
2. Atrial Fibrillation Update
3. Challenging Cases in Antithrombotic Therapy
4. Hypertension Update
5. Noncardiac Surgery for the Patient with Cardiac Disease. Risk Assessment, Risk Reduction
6. The Patient with Chronic CHF
7. The Patient with Chronic Coronary Artery Disease
8. The Patient with New Onset Congestive Heart Failure
9. Valvular Heart Disease: Application of the ACC/AHA Guidelines
10. Venous Disease for the Internist

CRITICAL CARE MEDICINE 2017

1. Management of Acute Coronary Syndromes
2. Management of Heart Failure and Atrial Arrhythmias
3. Update on Acute Respiratory Failure and ARDS
4. Update on the Diagnosis and Management of Acute Stroke
5. Managing Pain, Agitation, and Delirium in the ICU
6. Surgical Issues in the ICU – Abdominal Compartment Syndrome & Ischemic Bowel
7. Critical Care of the Cancer Patient
8. Strategies to Decrease Complications in the Critically Ill Patient
9. Diagnosis and Treatment of PE in the Critically Ill
10. Update on the Definition & Treatment of Sepsis & Septic Shock

11. Diagnostic Approach & Management of Alteration in Mental Status & Coma
12. Pneumonia in the Critically Ill Patient: Prevention, Diagnosis and Management
13. Appropriate Antibiotic Use in the ICU
14. Management of Obstructive Lung Disease in the ICU
15. Use of Blood Products in the ICU: Indications and Risks
16. Challenging Infectious Diseases in the ICU
17. Drug Overdose
18. Evaluating Critical Care – Standardized Mortality Rates and Scoring Systems

DIABETES FOR THE INTERNIST

1. Management of Pre Diabetes and Use of Metformin in Management
2. Identify Patients with Fatty Liver Disease and Type 2 Diabetes
3. Guideline Based Decisions in the Medical Management of Type 2 Diabetes
4. New Insulin Formulations, Delivery Methods, and Concentrations
5. Guideline Based Decisions in Management of Type 1 Diabetes
6. Personalized Care of the Patient with Diabetes
7. In Your Clinic: Case Studies

HOSPITAL MEDICINE: A DAY ON SERVICE

1. Electrocardiogram
2. Electrolyte Soup
3. Two-Midnights at the Oasis / Rashes and Skin Ulcers
4. Syncope
5. ICD-10 Pearls
6. Flavors of Acute Kidney Injury
7. Pearls for Palliation
8. Update in Hospital Medicine
9. VTE Update
10. Inflamed Joints
11. Early Warning System
12. Goals of Care

NEUROLOGY FOR THE INTERNIST

1. The Neurological Method (History and Examination)
2. Stroke and TIA
3. Parkinsonism and Other Movement Disorders
4. Epilepsy
5. Peripheral Neurology
6. Dizziness

PERIOPERATIVE MEDICINE 2017

1. Anesthesia Essentials for the Medical Consultant
2. Preoperative Testing: Essentials for Preparing the Patient for Surgery
3. Update in Perioperative Cardiology: Antiplatelet Agents in Patients with Coronary Stents Undergoing Non-Cardiac Surgery
4. Preoperative Pulmonary Risk Assessment: COPD, OSA, Smoking
5. Preoperative Medication Management: A Focus on the Most Commonly Used Medications
6. Valvular Heart Disease and The Patient Undergoing Non-Cardiac Surgery
7. Application of the Guidelines for VTE Prophylaxis in the Surgery Patient
8. Important Postoperative Cardiac Complications
9. Spine Surgery: Important Management Issues for the Medical Consultant
10. Management of the Diabetic Patient Undergoing Surgery
11. Elderly Patient Undergoing Non-Cardiac Surgery
12. Managing the Target Specific Oral Anticoagulants in the Perioperative Period

The American College of Physicians (ACP) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education (CME) for physicians. The ACP designates each enduring material listed below for the number of *AMA PRA Category 1 CME Credits™*.

CME 75 Package: 75 AMA PRA Category 1 CME Credits™.

CME 15 Package: 15 AMA PRA Category 1 CME Credits™.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn Medical Knowledge MOC points as listed below in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

CME 75 Package: 75 Medical Knowledge Points

CME 15 Package: 15 Medical Knowledge Points

Need just a few credits? ORDER THE CME 15 PACKAGE

CME 15 PACKAGE

A modified version of the
CME 75 package

- 15 CME CREDITS
- 15 MOC POINTS
- 15 SESSIONS
- 1 GREAT PRICE

Multiple Small Feedings of the Mind
(3 sessions):

- Cardiology, Sleep Medicine, and Infectious Diseases
- Gastroenterology, Integrative Medicine, and Endocrinology
- Internal Medicine, Addiction Medicine, and Anticoagulation

Updates (12 sessions):

- Cardiology
- Endocrinology
- Gastroenterology and Hepatology
- Geriatric Medicine
- Hematology and Oncology
- Infectious Diseases
- Nephrology and Hypertension
- Critical Care Medicine
- Pulmonary Medicine
- Rheumatology
- Women's Health
- General Internal Medicine

\$495

FAQ

How soon will I have access to my presentations?

After you place your order, you will receive an email which includes your login information to access your PlaybackACP account. Once you log in, you will have immediate access to stream or download your recordings. You **MUST** always log into your account to have access.

What devices can access my presentations?

You may **STREAM** your content on any computer with internet access including all mobile devices. You may **DOWNLOAD** the PlaybackNow APP for easy access to all of your content.

What is the difference between streaming and downloading?

Both streaming and downloading require internet access. Streaming-only requires constant internet access to receive the presentations. Downloaded files are stored on your device for easy access anytime, anywhere.

Can I download the entire package?

You may download each presentation one at a time. The USB Flash Drive makes moving all the presentations easy with a single copy and paste.

What are other advantages to the USB Flash Drive?

The 32 GB Flash Drive includes BOTH the Audio MP3 files and Video MP4 files for easy transfer. The Flash Drive is menu based so all you need to do is plug and play.

Do I actually see the presenter on Video MP4 Files?

The MP4 Video includes the Presenter PowerPoints synced with audio: a slideshow for a virtual re-creation of the session.

How do I claim my CME Credit and MOC Points?

All claims for CME Credit and MOC Points must be submitted online. After successfully passing each quiz, you will be automatically directed to the ACP website. You will log in to your ACP account and then submit for CME Credit and MOC Points. CME Credit and MOC Points from each package is designated to one user account and cannot be shared. Institutional users can purchase access for multiple users, each of whom can earn CME Credit and MOC Points. Call 800-241-7785.

Can I substitute discs instead of the Flash Drive?

Yes! You may substitute discs for the flash drive. Substitute option is available online; or call 800-241-7785 Ext 2.

Order	Includes	Total CME Credit and MOC Points	Price
