Pre-Course and Scientific Program Guide

Pre-Courses
P1 Advances in Therapy
P2 Cardiology for the Internist 2015: The Key Points
P3 Diabetes for the Internist
P4 Hospital Medicine: From Admission to Discharge
P5 Neurology for the Internist
P6 Perioperative Medicine 2015
P7 Critical Care Medicine 2015

Cardiology
101 Atrial Fibrillation 2015
102 Hypertension: Urgencies, Emergencies, and Refractory Hypertension
103 Lipid Management 2015: What Works, What Doesn’t?
104 Management of Acute Coronary Syndromes
105 Providing High-Value Care in Cardiology
106 Recognizing and Treating Peripheral Arterial Disease
107 The Physical Exam in the Cardiology Patient: Dead or Alive?
108 The Unsuspected Abnormal ECG
109 Update in Cardiology
110 Valvular Heart Disease 2015: State of the Art

Career and Professionalism
111 ABIM: Understanding Maintenance of Certification Requirements
112 Annals Articles that Can Change Practice: 2014-2015
113 Avoiding Malpractice: Preventive Measures to Limit Risk
114 Beating the Clock: How to Expand Your Time and Effectiveness
115 In the Patient’s Voice
116 Presentation Skills for Physicians: Making Your Next Teaching Presentation Go Better than Your Last
117 Pursuing Professional Excellence: The Role of Maintenance of Certification

Clinical Pharmacology
118 The Global Impact of Social Media on Clinical Practice
119 The Year’s Most Compelling Papers
120 Understanding Medical Decision-Making in Diverse Cultures

Communication Skills
125 Communication Between Generations

Dermatology
126 Wound Care for the General Internist

Early Career Physicians, Residents/Fellows
127 Balance the Glass Balls So They Never Break: Practical Tips for Work-Life Integration
128 Ethics and Being Graded by Patients: Help, I’m on Yelp!
129 The MOC Process: What’s New and How to Survive It?
130 Transitions to Outpatient Care

Endocrinology
131 Assessing and Managing Testosterone Abnormalities in All Your Patients
132 Clinical Management of Patients with Severe Insulin Resistance
133 Pharmacologic Management of Type 2 Diabetes: Is Metformin All There Is?
134 Thyroid Management: Yours (Endocrine), Mine (Primary Care), and Theirs (Surgery)
135 Update in Endocrinology

Ethics and Health Policy
136 60 Minutes: Special Report on Hot Issues in Health Policy
137 Ethical Issues in Medical Volunteerism
138 Ethics and the “Virtual Patient”: Recognizing the Patient in the Room in the Time of EHRs
139 Ethics Year in Review
140 Patient Requests for Care that Is Not Clinically Indicated: Ethical Challenges Role Play
141 The Affordable Care Act Health Coverage Expansion: One and a Half Year Progress Report

Gastroenterology and Hepatology
142 Clinical Triad: The Experts Weigh in on Obesity
143 Functional Gastrointestinal Disorders and Food: You Are What You Eat
144 Gastroesophageal Reflux Disease: The Risk of Treating and Not Treating This Common Condition
145 Hepatitis C: New Patients, New Treatments
146 Inflammatory Bowel Disease: Special Considerations for the Internist
147 Let’s Get Moving: A Rational Approach to Diarrhea and Constipation
148 The Expanding World of Fatty Liver Disease
149 Update in Gastroenterology and Hepatology

Included in Hospital Medicine Package
CME75 Package
### Scientific Program Guide

#### Geriatric Medicine
- **150**: Diagnosis and Treatment of Cognitive Impairment: MCI and Dementia in the Clinic
- **151**: Geriatric Cardiology
- **152**: Geriatric Health Maintenance: The Evidence Base
- **153**: Maintaining the Independence of Older Patients
- **154**: Practical Aspects of Hospice and Palliative Care
- **155**: Update in Geriatric Medicine

#### Health Information Technology
- **156**: EHR Optimization for Internists: Making the EHR Work for You
- **157**: Engaging the e-Patient: How Technology, Transparency, and Attitude Can Improve Practice for You and Your Patients
- **158**: Improving Quality and Safety: Choosing the Right Quality Measures and Clinical Decision Support for Your Practice
- **159**: Meaningful Use Stage 2 and Beyond
- **160**: Population Management: Leveraging Your EHR to Improve Outcomes in Priority Patient Groups
- **161**: There’s an App for That
- **162**: What May Change Your Practice Tomorrow: Hot Topics in Medical Informatics

#### Hematology
- **163**: Clinical Triad: Anticoagulants Update—What the Internist Needs to Know
- **164**: Thrombocytopenia in Hospitalized Patients: Where Have All the Platelets Gone?
- **165**: Transfusion Medicine: It’s Better to Give than to Receive
- **166**: Update in Hematology

#### Hospital Medicine
- **167**: A Case-Based Approach to Managing Delirium
- **168**: A Palliative Care Primer
- **169**: An Alphabet Soup of Inpatient Pneumonia

| **170**: An Ounce of Prevention: Keeping Our Patients Safe | **171**: Antibiotic Stewardship | **172**: Back from the Brink: Dealing with Clinical Deterioration |
| **173**: Challenges in Inpatient Management of Pregnant Patients | **174**: Clostridium difficile: From the Simple to the Complicated | **175**: Dermatology for the Hospitalist |
| **176**: Emerging Infections: When to Hit the Panic Button | **177**: Handoffs and Fumbles: A Case-Based Approach | **178**: Health Care–Associated Infections: How Can We Prevent Them? |
| **179**: Heart Failure Admissions and Readmissions | **180**: HIV for Hospitalists | **181**: Improving Outcomes of Hospital Care for Seniors |
| **182**: Inpatient Care of the Patient with Sickle Cell: A Case-Based Approach | **183**: Inpatient Electrolytes: A Case-Based Approach | **184**: Inpatient GI Consults: Pears Every Internist Should Know |
| **185**: Inpatient Management of Diabetic Patients | **186**: Inpatient Medical Liability | **187**: Inpatient Nutrition |
| **188**: Lessons from the 19th Century for the 21st-Century Physician | **189**: Managing a Hospitalist Practice | **190**: Managing the Post-transplant Patient |
| **191**: Neutropenic Fever | **192**: Postoperative Complications | **193**: Rheumatology in the Hospital: Common Clinical Challenges |
| **194**: Stroke: Inpatient Management | **195**: TB in the Hospital | **196**: Telemetry 101: Interpretation and Management for the Hospitalist |
| **197**: The Hospitalized Patient on Dialysis | **198**: The Value-Based Hospitalist | **199**: Update in Hospital Medicine |

#### Infectious Diseases
- **200**: Clinical Triad: Immunizations for Adults, Travelers, and Health Care Workers
- **201**: Ebola and Other Recent Epidemics in the News
- **202**: Emerging Infectious Diseases: An International Perspective from the MERS-CoV Experience
- **203**: HIV: What the Internist Needs to Know
- **204**: STDs: What’s New?
- **205**: Update in Infectious Diseases
- **206**: Vaccines for the Busy Internist: Updates and Pearls from the Med-Peds World
- **207**: Vector-Borne Infections: Not Just for Travelers

#### Medical Practice Management
- **208**: Advanced Coding: Do It Right
- **209**: C. Wesley Eisele Lecture: Leveraging the Health IT Tipping Point—Using HIT to Improve Safety and Quality
- **210**: ICD-10: Are You Ready?
- **211**: Making Your Practice Patient-Centered
- **212**: Practical Guide to Implementing Immunizations in Your Practice
- **213**: Small Practice Strategies for Mastering the Complexities of Today’s World
- **214**: The Evolution of New Payment Models: How to Prepare and Prosper as a Small Practice
- **215**: Thriving in a Value-Based Payment World: Navigating Performance Measurement, Public Reporting, and Federal Incentive Programs
- **216**: Tools and Tips to Restore Care Coordination Between Primary Care Physicians and Subspecialists: From Chaos to Connection

Medical Student Programs
217 Mastering the Match
218 Turning a Clinical Case into Scholarly Work

Nephrology and Hypertension
219 Clinical Triad: Hypertension-Devices, Drugs, and Diet
220 Evaluation and Management of Kidney Stones
221 Implementing New CKD Guidelines into Practice
222 Update in Nephrology

Neurology
223 Clinical Triad: Dizziness—Important Considerations in the Workup
224 Headache: Evaluation and Treatment
225 History of Boston Neurology: Glimpses of the Past and Lessons for the Future
226 Peripheral Neuropathy: Diagnosis and Management

Oncology
227 Current State of Targeted Therapies for Cancer: Hitting the Bull’s Eye
228 Prostate Cancer Update
229 Update in Oncology

Ophthalmology and Otolaryngology
230 Five Common ENT Referrals: Chronic Sinusitis, Ménière’s, Hearing Loss, Chronic Tonsillitis, and Hoarseness

Perioperative Medicine
231 Consult Talk
232 Update in Perioperative Medicine

Psychiatry
233 Managing the Patient with Personality Disorder
234 Psychiatry for the Non psychiatrist: Depression, ADD, Anxiety, and PTSD

Pulmonary Diseases and Critical Care
235 COPD Management
236 Interstitial Lung Disease: Dealing with Management Dilemmas
237 Lung Cancer Screening
238 Smoking Cessation: Treatment Options
239 Update in Critical Care
240 Update in Pulmonary Medicine

Rheumatology and Allergy & Immunology
241 Back Pain: Improving Outcomes
242 Cases from the Allergy Clinic
243 Giant Cell Arteritis: Everybody’s Headache
244 Lupus: The Wolf in Sheep’s Clothing
245 Osteoporosis: Management Strategies
246 Shoulder and Knee Pain
247 Sports Medicine: Common Sports-Related Injuries
248 Update in Rheumatology
249 When the Hot Joint Walks (or Limps) In

Women’s Health
250 Clinical Triad: Breast Cancer-Truth and Controversy
251 Contraception Update: Which Patient, Which Method?
252 Innovations in Incontinence: Diagnosis and Treatment
253 Sexual Disorders in Women
254 Update in Women’s Health
255 What’s New in Menopause Management? (Presented in cooperation with the American College of Obstetrics and Gynecology)

Clinical Pearls
257 Clinical Pearls: General Internal Medicine and Infectious Diseases
258 Clinical Pearls: Neurology and Palliative Medicine
259 Clinical Pearls: Vascular Medicine and Dermatology

Multiple Small Feedings of the Mind
266 Multiple Small Feedings of the Mind: Cardiology, Pain Management, and Pulmonology
267 Multiple Small Feedings of the Mind: Gastroenterology, Substance Use and Abuse, and Sleep Medicine
268 Multiple Small Feedings of the Mind: Infectious Diseases, Integrative Medicine, and Diabetes

Additional Topics
256 Award-Winning Innovations in High-Value Care
260 Complementary and Integrative Medicine 2015
261 Defining Internal Medicine: The History of the ACP
262 Disaster Response: Individual vs. Institutional
263 Evidence-Based Physical Diagnosis
264 History of Politics in American Medicine
265 Internal Medicine Meeting 2015 Highlights and Doctor’s Dilemma™: The Finals
269 News You Can Use: Current Clinical Guidelines
272 The History of Annals and the Future of Medical Journals
273 Thieves’ Market—Fascinating Cases
274 Update in General Internal Medicine
